In support of the launch of the Arthur Guinness Fund™ in Singapore, GUINNESS is proud to present the first-ever Arthur Guinness Fund™ Hackathon, an event initiated to empower marginalised women to lead better lives.

This event will see 200 passionate, like-minded people for a weekend of intensive discussion in creating solutions focused on helping single mothers and female ex-offenders overcome the social and economic barriers which made it difficult for them to support themselves and their families financially.

GUINNESS has set aside up to \$60,000 to invest in the best ideas generated over the AGF Hackathon weekend. With guidance from expert mentors, the teams with the most innovative, and viable ideas will be awarded with the money and also the opportunity of developing their very own ideas into sustainable real-world projects. GUINNESS will also help to oversee their projects through a long-term commitment.

Register at <http://www.upsingapore.com/AGF> (<http://www.upsingapore.com/arthur-guinness-fund/>) to participate in this meaningful event.
